

Member Proposals 2017 AGM

PROPOSAL #1

Submitted by **CURLSASK Board of Directors**

Be it Resolved that CURLSASK Board of Directors are requesting that the 2017-2018 Member Fees be as follows:

Affiliate Club Member Fee be \$15 per Player Member as listed on the Member Registry submitted by the Curling Club.

Associate Members Fee remain as \$300 per organization. The \$15 per member fee only charged to those individual members in the Associate Member who are not currently player members of an Affiliated Curling Club.

Background information and rationale:

CURLSASK exists to serve its members and member clubs to grow and develop the sport of curling throughout Saskatchewan. CURLSASK is actively growing and is looking to the future to create new service and programs for the curling community of Saskatchewan.

CURLSASK receives the majority of its revenue through Saskatchewan Lotteries and corporate sponsorship. The Saskatchewan Lotteries funding is based on the number of member curlers in the province. These Saskatchewan Lotteries funds are the monies that are passed back directly to the clubs to assist with club operations and projects.

CURLSASK is proposing to have each member curler pay an additional \$5 per season CURLSASK membership fee. This is the first fee increase since the implementation of individual membership fees during the 2014-2015 curling season.

PROPOSAL #2

Submitted by **CURLSASK Board of Directors**

Be it Resolved that CURLSASK Board of Directors are requesting the following revision to Section 9: Fiscal Period, Audit and Signing Officers in the Association's Bylaws:

9.3 The signing officers of the Association are any two of the Executive Director and any member on the Board of Directors.

Background information or rationale:

Currently only any two of the President, Vice-President, Finance Officer and Executive Director are signing officers. The limited number of signing officers, who may be dispersed throughout Saskatchewan, at times, causes delays to CURLSASK activities. Expansion to the entire CURLSASK Board of Directors will minimize this issue and will also result in cost savings.
